

BALL

IN A

BOX

In one of the two boxes, a ball is hidden, the other is empty.

Goal: Where is the ball?

Rules

Two people (A + B) play against each other.
Each player chooses a box.

Player A may look inside their box - but may not show anything or move the box.

Player B asks questions - lying is allowed!
Decide for yourself when you know enough weiss:
keep or swap?

Open the boxes - whoever has the ball wins and may impose a penalty on the loser!
